<h3>Meet the App Home Screen</h3>  <p>Battery Life Setting Weather Running Status Last IrrigationTime Next Schedule Remote Control Rain Delay Timing Irrigation Record</p> <p>8</p>	<p>Press the "Timing" button and then the "+", you can set "Normal Schedule" or "Cycle/soak" watering program.</p> <h3>Normal Schedule</h3>  <p>Start Time Irrigation Duration Irrigation Frequency Whole Schedule: Irrigation for 10 mins every Mon and Thur at 9:00AM. (You can set up to 10 groups normal schedule.)</p> <p>9</p>	<h3>Cycle/soak</h3>  <p>Irrigation Period Irrigation Frequency Irrigation Duration Irrigation Pause Time</p> <p>Whole Schedule: During 10:00AM to 10:00PM, the timer will cycle watering program for 5 mins and stop for 6hrs. The timer will watering at 10:00-10:05AM and 4:05-4:10PM.</p> <p>10</p>	<h3>Additional Water Timer Features</h3> <h4>Manual Watering</h4> <p>Your timer has the ability to allow you to manually water without disturbing the programmed schedule. Manual is used to test equipment, run an extra watering cycle in an area, or to use the hose faucet without removing the timer. Press the ON/OFF button to activate manual watering. Using the app you can set how long you want the preset manual cycle to run for.</p> <h4>Stop Watering</h4> <p>You can stop the flow of water at any time whether it is during manual watering, or during a programmed time. Press the ON/OFF button once to stop watering.</p> <h4>Rain Delay</h4> <p>You can manually temporarily suspend your watering program for up to 24H, 48H, 72H using the rain delay feature. After the selected delay has ended, your watering program will automatically resume.</p> <p>11</p>	<h3>Warm Tips</h3> <ol style="list-style-type: none"> When expecting freezing temperatures, timer should be removed from the faucet and stored indoors to avoid potential freeze damage. Please remember to clean the filter regularly and replace it if worn. The installation direction of the product is top in and bottom out, otherwise the valve cannot be closed. When installed, the rotary hose faucet connection, do not rotate the product, otherwise it will cause the valve head off Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel cadmium) batteries. Used up or dead batteries must be removed from the timer and disposed of properly. <p>12</p>	<h3>Troubleshooting</h3> <p>Q: Why the bluetooth water timer didn't turn on/off at preset time?</p> <p>A:</p> <ol style="list-style-type: none"> Programming is incorrect Water pressure is too low Particles of dirt or debris stuck in valve Faulty valve The faucet is off The batteries is low Loose connection of valve terminal wire <p>Q: Do i have to keep my phone continuously in range for the timer to work</p> <p>A: Once the program is set, it will run without your phone being near the device. You do have to be in range to change a program though</p> <p>Q: Why irrigation recorded data will be lost?</p> <p>A: When the timer connection exceeds the distance, the missing data. But does not affect the watering function of the equipment</p> <p>13</p>	<h3>Support</h3> <p>If you have any questions about our product, please feel free to contact us .
